The strength of a national company with local customer service.

Pavestone, LLC began in 1980 with one manufacturing facility in North Texas. From the beginning, we dedicated ourselves to delivering the greatest selection and the highest quality of segmental concrete systems available in the U.S. Our pave stones, retaining walls, edgers, patio stones, and erosion control systems transform landscapes into beautiful dreamscapes. Today, Pavestone brand products are manufactured in 23 state-of-the-art facilities delivering to more than 40 states. Thank you for choosing our products to add beauty and value to your landscape.

PLAZA STONE RECTANGLES AND SQUARES / SANDSTONE

PLAZA STONE

Pavestone's Plaza Stone is a timeless paving stone with an impressionistic embossed surface profile. It creates a gentle and warm effect by combining soft curved edges with rectangular and square stones. Plaza Stone is available in many colors to accommodate the most discriminating tastes and desires. Plaza Stone uses large-scale patterns to create interest and drama for commercial landscaping, while the stone's texture and pattern harmonize with surrounding buildings and site furnishings.

PLAZA STONE PLATINUM SERIES / TAHOE BLEND

PLAZA STONE PLATINUM SERIES

The new Pavestone Platinum Series brings a new defined finish and color to concrete pavers. This series offers superior surface texture, a higher level of color presentation and enhanced product color endurance. The Platinum surface is comprised of finer gradation materials produced by Pavestone Company's state of the art production equipment. This finer surface appearance differentiates itself by providing a more uniform surface appearance and color. By creating a higher density of color within the paving surface, the products color is better presented.

VENETIAN STONE™ HERITAGE™ SERIES / SANDSTONE BLEND

VENETIAN STONE™

The Venetian Stone™ product advent is the latest development in enhanced pavements by Pavestone. Its uniquely attractive cleft surface sets it apart from ordinary pavers. This texture recalls old world charm and invokes a traditional convention. The larger scale of Venetian Stone™ pavers lends itself to stately residential settings and more expansive commercial applications. Its modular pattern equalizes the scale of any project and is fitting to most any architectural elements.

VENETIAN STONE™ PLATINUM SERIES

VENETIAN STONE™ PLATINUM SERIES

Pavestone Platinum Series offers unique and new options to the design professional. This series provides the designer the ability to integrate higher density colors and create more visually stimulating impressions in architectural paving surfaces. Greater contrast in color and better blend variegation mean higher satisfaction with the design intent. The Pavestone Platinum Series sets it self-apart by being distinctly different and demonstrating greater value to the end user.

HOLLAND STONE / RIVER RED

HOLLAND STONE

With the renowned durability of interlocking pave stones, Holland Stone offers the old world charm of a simple paver shape. The rectangular shape of Holland Stone can be installed in a number of fascinating patterns to produce simple or intricate designs. Mix these patterns with any of the available standard colors or combination of colors and you've got the potential for an architectural effect limited only by the imagination.

GRASSTONE™ II / RIVER RED

GRASSTONE™ II

Grasstone™ II by Pavestone is a versatile surface stabilization product used for both sloped and horizontal applications. The Grasstone™ II grid paver provides a sustainable solution to surface erosion, allowing infiltration of water and the ability to establish vegetation. Grasstone™ II reinforces grass areas by providing a concrete matrix support combined with topsoil and vegetative cover. This system can provide substantial pavement strength to minimize rutting and create a suitable platform for intermittent vehicular use. Grasstone™ II has been used extensively for vegetated fire lane pavements when designed and constructed according to conventional pavement design.

59 ECO-VALENCIA™
61 ECO-VENETIAN STONE™

THE NEXT GENERATION OF PERMEABLE PAVING SOLUTIONS

WHO SAYS IT HAS TO BE INDUSTRIAL-LOOKING?

- Performs as a structural pavement.
- Reduces or eliminates stormwater detention.
- Provides 100% pervious surface.
- Infiltrates, filters, and decreases stormwater runoff rate and pollutant loads.
- Increases site infiltration that helps maintain pre-development runoff volumes, peak flows, and time of concentration.

ECO-VENETIAN STONE™ / HERITAGE BUFF

ECO-CITYLOCK™ / GREY CEMENT CHARCOAL, WHITE CEMENT, AND WHITE CEMENT WHITE

ECO-CITYLOCK™

Pavestone's Eco-CityLock™ Series is an innovative and unique narrow modular permeable paver system that parallels today's trend of architectural alignment and visual direction. In addition to the contemporary aesthetics, the product also delivers a sustainable, permeable pavement surface. The structural interlocking spacer bars contribute resistance for premium vertical, horizontal and rotational interlock of the neighboring units. Versatility of construction affords installation patterns that can be installed in 4" stagger bond offsets or a variety of herringbone configurations. The arrangement of design intent and environmental balance case a creative solution for adding aesthetics to site work stormwater management solutions.

PERMEABLE PAVERS TREATMENT AND DETENTION

Colors printed here are as true a match as the printing process will allow. For best matching results, please refer to actual samples.

ECO-PRIORA™ / PEWTER, RED, GREEN, AND BLUE

ECO-PRIORA™

The patented interlocking joint and non-chamfered top edge profile of Pavestone Eco-Priora™ insures optimum performance unequaled in the permeable paver industry. The unique Eco-Priora™ joint profile allows surface water to infiltrate into the pavement and its sublayers. Pavestone Eco-Priora™, even with a clogging factor, will still meet the majority of current storm water management plans (SWMP), as well as, assist in meeting current EPA storm water regulations and LEED certification.

ECO-VALENCIA™ / ABBRONZA BLEND

ECO-VALENCIA™

Pavestone Eco-Valencia™ is the sustainable solution for modular multiple shape permeable pavements. Its modular square and rectangular shapes with a cleft surface set it apart from other permeable pavement treatments. This texture resembles stone facing and invokes a more natural convention. The Eco-Valencia™ larger scales lends itself to stately residential settings and more expansive commercial applications. Its modular pattern equalizes the scale of any project and is fitting to most any architectural elements.

ANCHOR™ HIGHLAND STONE® RETAINING WALL SYSTEM 6-INCH / TRUCKEE

ANCHOR™ HIGHLAND STONE®

RETAINING WALL SYSTEM 6-INCH

The Anchor™ Highland Stone® 6" Retaining Wall System is designed with the texture and look of natural stone. This unique three piece system offers a hand hewn facing that accommodates a stone like appearance. With the patented rear lip, setback and alignment are facilitated resulting in faster, more reliable construction.

RUMBLED™ WALL / TRUCKEE

RUMBLED™ WALL

RETAINING WALL SYSTEM

Capturing the old world charm, Pavestone's Rumbled™ Wall brings a natural appeal to the landscape industry. Using a rectangular and square shape format, simplicity and functionalism are combined. Dry stacked or mortar set, Rumbled™ Wall is easily constructed and visually distinguishes itself from the competition.

RUMBLESTONE™ COLLECTION

Reminiscent of our fondest childhood toys, Pavestone's innovative RumbleStone™ provides a set of rustic building blocks for your outdoor hardscape projects. Whether your project is simple or complex, large or small, RumbleStone's possibilities for creative expression are as limitless as your inner child's imagination. The six tumbled RumbleStone™ sizes can be assembled in an endless variety of configurations and orientations. In addition to simple running bond patterns, the stones can be easily stacked with insets, moved forward and backward, horizontally and vertically, for more aesthetically pleasing visual relief and texture. What will you create?

POLYMERIC SAND

ACCESSORIES

QUIKRETE® CEMENT & CONCRETE PRODUCTS™

Since 1940, The QUIKRETE® Companies have produced more than 200 professional-grade and consumer products. Through these product lines, the QUIKRETE® Companies offer a variety of mixes that will allow you to complete your outdoor kitchen project quickly and efficiently. Most Pavestone plants stock a limited amount of bagged concrete mix from Quikrete such as:

CONCRETE MIX (#110180) – QUIKRETE® Concrete Mix is a pre-blended mixture of cement and aggregates for general structural uses, requiring only the addition of water.

Use For: Foundation Walls and Footings • Sidewalks • Curbs • Steps • Ramps • Walkways

PORTLAND CEMENT (#112594) – QUIKRETE® Portland Cement can be mixed with aggregate and other ingredients to make concrete mix, and base coat stucco.

Use For: Making High Strength Repair Mortars & Concrete

PLASTIC CEMENT (#212194) – QUIKRETE® Plastic Cement is a blended cement specifically designed for use with plaster sand to make Base Coat Stucco and Finish Coat Stucco Mixes.

Use For: Base Coat Stucco • Finish Coat Stucco Mixes

Contact Your Local Representative for availability on the full line of QUIKRETE® products such as bagged concrete mixes, concrete repair products, and masonry products.

SPEC MIX®

STONE VENEER MORTAR (#19010) – SPEC MIX® Stone Veneer Mortar is a specially formulated mortar for use in the installation of adhered masonry veneer.

POLYMER MODIFIED STONE VENEER MORTAR (#19011) – SPEC MIX® Polymer Modified Stone Veneer Mortar is a technologically advanced adhered mortar for use in bonding adhered manufactured stone veneer, natural thin cut stone and thin brick to a cementitious substrate.

PORTLAND LIME & SAND (#19007) – SPEC MIX® Portland Lime & Sand mortar is a dry pre-blended mortar mix containing Portland cement, hydrated lime and dried masonry sand formulated for superior bond, water retention and board life.

POLYURETHANE CONSTRUCTION ADHESIVE – A high performance, construction grade adhesive designed for permanently bonding concrete, brick, marble, stone, wood, aluminum, steel, PVC, and tile.

Use For: Repairing broken concrete • Bonding Retaining Wall Block and Caps

NATURAL LOOK SEALER – Water based penetrating silicone sealer waterproofs and protects concrete, brick, masonry, pavers, and stucco surfaces. Clear sealer dose not change the surface appearance. Seals from water, salts, and oils. UV Resistant.

Use For: Driveways • Patios • Walls • Sidewalks • Pre-Stress Panels • Retaining Walls • Tunnels • Loading Docks • Bridge Columns • Tunnels • Curbs/Steps

WET LOOK HIGH GLOSS SEALER – Water based penetrating silicone sealer waterproofs and enhances the color of concrete, masonry, brick, paver, and natural stone surfaces. Seals from acids, grease, food stains, oil, salt, and more. UV resistant.

Use For: Decorative Concrete • Pavers • Natural Stone • Exposed Aggregate • Brick • Stucco

POLYMERIC SAND - Polymeric Sand is a precise mixture of polymer binders and clean natural sand. Polymeric Sand will bond with the pavers/stones adding strength to the joint, as well as, reliability to the pavement system. It is ideal for use on any paver surface such as sloping areas, driveways, patios, pool decks, sidewalks, etc.

Use For: Driveways • Sidewalks • Pool Decks • Patios

GEOGRID AND EDGE RESTRAINT

GEOGRID

ECO-VENETIAN STONE™ PLATINUM SERIES / ABBRONZA BLEND

Color Variations

As in all natural materials, color in paving stones and wall stones has inherent variations. Paver and wall color is affected by the variances in the raw materials, concrete mixture, moisture content, climactic conditions, and other variations. Therefore, the colors shown are approximate representations of Pavestone's paver and wall colors, but should not be expected to be an exact match of what will be delivered.

The Nature of Efflorescence

Another cause of color variation in paving stones and wall stones may be the natural phenomenon called efflorescence. Efflorescence, a deposit of white salts consisting of mostly calcium carbonate, may appear as a white powder on the paver or wall surface and in no way affects the structural integrity. This phenomenon occurs in all concrete and although it cannot be completely prevented from occurring, efflorescence generally will weather off and disappear over time or can be removed with cleaners at the job site.

PAVESTONE.COM

PAVESTONE, LLC

LIMITED LIFETIME GUARANTEE OF QUALITY

Pavestone, LLC hereby provides to the original purchaser a lifetime guarantee that its concrete paving stones purchased by the purchaser and installed for residential use will be free from defects in workmanship or materials given normal use and care. Concrete paving stones installed according to ICPI standards, and properly cared for that prove defective will be replaced without cost, except that Pavestone, LLC will not be responsible for labor, transportation costs or equipment costs. Warranty covers product only. Pavestone, LLC does not guaranty color matching nor does it assume responsibility for damage or defects arising from improper installation, abuse or the alteration or application of any other materials to its concrete paving stones. To obtain performance under this guarantee, the purchaser should contact Pavestone, LLC at 3490 Piedmont Ave., #1300, Atlanta, Georgia, 30305, telephone number 1.404.634.9100. This guarantee gives the purchaser specific legal rights, and the purchaser may also have other rights that vary from state to state.
