KEYSTONE COMPAC® - STRAIGHT

## Just imagine the possibilities...

---

A backyard sanctuary to relax and recharge, a gathering space to entertain family and friends, a stunning driveway and walkways to make a great first impression... every day Keystone Hardscapes helps turn dreams like these into realities.

At Keystone Hardscapes, we are committed to providing unrivaled product selection, quality and customer service. Since the 1980s, our products have been installed in thousands of residential and commercial properties. Our innovative and versatile paving, wall and outdoor living elements continue to be favorites of homeowners, contractors, designers and developers alike.

Keystone Hardscapes is where beauty and functionality meet; where outdoor dreams come to life.

Locally made products, nationally trusted brand. No need to put off until tomorrow what we can build together today. Trust us to help transform your residential or commercial property.

3X18 UNIT SHOWN

# VERONA™

The Verona series of pavers, planks, and slabs creates a clean and urbane look through minimalist detailing – surfaces are smooth and planar, edges are microchamfered, and joints are tight. Creating a smooth and nearly textureless pavement to draw attention to color patterns, monochromatic blends, and monolithic fields, Verona brings a sense of refinement when installed as single shapes or repeating patterns.

# VINTAGE STONE®

The Vintage Stone product line delivers scale, color, and modular design options for a unique pavement expression. The truly random pattern of Vintage Stone creates an infinite number of impression possibilities, making it one of the most popular design elements for pavements today. Vintage Stone is available in tumbled antiqued texture. Add the Giant Vintage Stone to open up a larger scale for more elegant designs.

# ADA Detectable Warning Paver

The ADA Detectable Warning Paver is an additional guidance provision for wheelchair and pedestrian access to streets, sidewalks and other components of the public right of way. This product will help ensure local jurisdictions and other entities that their facilities are accessible to people with physical or sensory disabilities. The ADA Detectable Warning Paver provides visual as well as textural contrast to conventional publicly utilized pavements.

# ECO-CITYLOCK®

Eco-CityLock series is an innovative and unique narrow modular permeable paver system that parallels today's trend of architectural alignment and visual direction. In addition to the contemporary aesthetics, the product also delivers a sustainable, permeable pavement surface. The structural interlocking spacer bars contribute resistance for premium vertical, horizontal and rotational interlock of the neighboring units. Versatility of construction affords installation patterns that can be installed in 4" stagger bond offsets or a variety of herringbone configurations. The arrangement of design intent and environmental balance makes a creative solution for adding aesthetics to site work stormwater management solutions.

## PERMEABLE PAVERS TREATMENT

## PERMEABLE PAVERS TREATMENT AND DETENTION

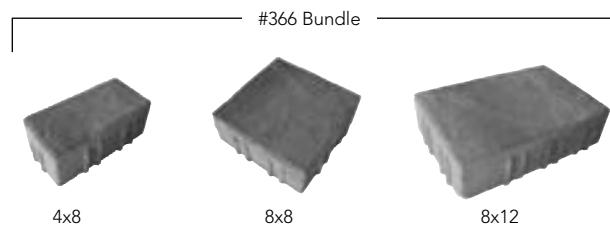

Colors printed here are as true a match as the printing process will allow. For best matching results, please refer to actual samples.

# ECO-PANORAMA™ Demi

The Eco-Panorama series features rectilinear shapes, riven surfaces, and rounded edges which recall the timeless appeal of weathered cut flagstone. These permeable pavers perform as structural pavement and reduce or eliminate stormwater detention. These pavers provide 100% pervious surfaces that infiltrate, filter, and decrease stormwater runoff rates and pollutant loads.

# GRASSTONE™ II

Grasstone II is a versatile surface stabilization product used for both sloped and horizontal applications. The Grasstone II grid paver provides a sustainable solution to surface erosion, allowing infiltration of water and the ability to establish vegetation. Grasstone II reinforces grass areas by providing a concrete matrix support combined with topsoil and vegetative cover. This system can provide substantial pavement strength to minimize rutting and create a suitable platform for intermittent vehicular use. Grasstone II has been used extensively for vegetated fire lane pavements when designed and constructed according to conventional pavement design.

# KEYSTONE COMPAC® - Straight

A specifier's favorite, Keystone Compac III features unrivaled aesthetic options, cost saving versatility and proven wall performance. Installer's prefer the Compac's lighter weight and shorter tail design which make it easy to handle. Trusted by architects, engineers and contractors worldwide, the Keystone Compac unit utilizes the proven Keystone pin connection system.

Straight

8" Straight Corner

2 Connection pins required per unit. Pins allow for near-vertical or battered setback construction options.

## AVAILABLE COLORS

Colors printed here are as true a match as the printing process will allow. For best matching results, please refer to actual samples.

# KEYSTONE STANDARD® - RockFace

The structural unit that set the original bar has raised it. The Keystone Standard III unit design combines with sound engineering to create a commercial retaining wall solution that provides unrivaled structural stability and efficiencies. From backyard landscaping to large, load-bearing reinforced structures, the Keystone Standard unit's colors and design possibilities make it a favorite of architects, engineers and contractors worldwide.

# HARINGTON® 3-pc

The Harington 3-pc retaining wall system evokes the texture and look of natural stone, making a striking architectural statement. The hand-hewn facing creates a stone-like appearance while the rear lip eliminates setback and alignment issues to speed construction. Available in blended earth tone colors, these retaining wall units are a reliable, easy-to-install alternative to natural stone walls.

## AVAILABLE COLORS

\*Truckee Blend color not available for the 6" Straight Corner.

# HARINGTON® FREESTANDING 3-pc

The Harington Freestanding 3-pc wall is crafted with earthen colors and rough-hewn texture making it a top choice for retaining walls. The units are available in three different sizes, giving wall appearance a more random natural look. Create curved or straight freestanding walls in addition to columns, outdoor kitchens and fire features with this versatile system.

# RUMBLESTONE® COLLECTION

Reminiscent of our fondest childhood toys, the innovative RumbleStone collection provides a set of rustic building blocks for your outdoor hardscape projects. Whether your project is simple or complex, large or small, RumbleStone's possibilities for creative expression are as limitless as your inner child's imagination. The seven tumbled RumbleStone sizes can be assembled in an endless variety of configurations and orientations. In addition to simple running bond patterns, the stones can be easily stacked with insets, moved forward and backward, horizontally and vertically, for more aesthetically pleasing visual relief and texture. What will you create?

# STONEGATE®

Reminiscent of the walls found scattered throughout the European countryside, Keystone's Stonegate features a smooth, weathered stone appearance. Both a backyard and structural solution; Stonegate's refined look combines with unsurpassed design versatility to make it the product of choice for outdoor living projects, freestanding and retaining walls\*.

\*Retaining walls higher than 3' can be reached with proper engineering and the use of geosynthetic reinforcement.

# ACCESSORIES

**NATURAL LOOK SEALER** – Water-based penetrating silicone sealer waterproofs and protects concrete, brick, masonry, pavers, and stucco surfaces. Clear sealer does not change the surface appearance. Seals from water, salts, and oils. UV Resistant.

**Use For:** Driveways • Patios • Walls • Sidewalks • Pre-stress panels • Retaining walls • Tunnels • Loading docks • Bridge columns • Tunnels • Curbs/steps

**COMMERCIAL GRADE POLYURETHANE CONSTRUCTION ADHESIVE** – High performance, commercial grade adhesive designed for permanently bonding concrete, brick, marble, stone, wood, glass, aluminum, steel, PVC and tile.

**Use For:** Repairing broken concrete • Bonding retaining wall block and caps

**WET LOOK HIGH GLOSS SEALER** – Water-based penetrating silicone sealer waterproofs and enhances the color of concrete, masonry, brick, paver, and natural stone surfaces. Seals from acids, grease, food stains, oil, salt, and more. UV resistant.

**Use For:** Decorative concrete • Pavers • Natural stone • Exposed aggregate • Brick • Stucco

**POLYMERIC SAND** - Polymeric Sand is a precise mixture of polymer binders and clean natural sand. Polymeric Sand will bond with the pavers/stones adding strength to the joint as well as reliability to the pavement system. It is ideal for use on any paver surface such as sloping areas, driveways, patios, pool decks, sidewalks, etc.

**Use For:** Driveways • Sidewalks • Pool decks • Patios

## COLOR VARIATIONS

As in all natural materials, color in paving stones and wall stones has inherent variations. Paver and wall color is affected by the variances in the raw materials, concrete mixture, moisture content, climactic conditions, and other variations. Therefore, the colors shown are approximate representations of paver and wall colors, but should not be expected to be an exact match of what will be delivered.

## THE NATURE OF EFFLORESCENCE

Another cause of color variation in paving stones and wall stones may be the natural phenomenon called efflorescence. Efflorescence, a deposit of white salts consisting of mostly calcium carbonate, may appear as a white powder on the paver or wall surface and in no way affects the structural integrity. This phenomenon occurs in all concrete and although it cannot be completely prevented from occurring, efflorescence generally will weather off and disappear over time or can be removed with cleaners at the job site.
